GENERAL INFORMATION OF THE WINE					
NAME OF WINE	Santa Helena	**LOT**	25RSTH01	**VINTAGE**	2025
APELATION	Terra Alta (Spain), winery not registered in the designation of origin.			**PRODUCTION OF THIS VINTAGE**	880 bottles
CHARACTER OF THIS VINTAGE	Autumn and spring were rainy, with considerable humidity. Winter was cool and summer was very hot. The vineyard plots were affected by hail on two occasions. The first hailstorm occurred just before the grape set and caused great damage to the plant, the vines were left open, all the leaves were broken and some of the flowers were affected, we managed to alleviate the effects of this hailstorm with immediate plant care. The second hailstorm occurred at the beginning of July and affected us less but also left large damage. The wet periods occurred mainly during the months of spring and early summer, increasing the incidence of oidium. We caught it in time, did a good green pruning (within what was possible, because the plants were very affected by the first hailstorm) and treated with sulfur. We arrive at the harvest with healthy grapes and plants. The leafy part is much larger than we have had in recent years, and it is holding up rigidly and with a good color. The grapes are affected by the sun and the excessive and prolonged heat before the harvest. Production is much lower. Once the grapes are processed in the cellar, we observe that they have a low yeast population due to the high temperatures and low humidity that they have endured in the last month. Fermentations are slow.				
ORIGIN OF THE NAME OF THIS WINE	Santa Helena comes from the exact name of the parcel. It's the unique vineyard that you don't see from the house of Terme de Guiu so, sending people to work there is banishing them, like Britain people did with Napoleon Bonaparte after losing the battle in Waterloo. (always joking ;))				

VINEYARD					
GRAPE VARIETY (%)	85% Carignan, 15% white Grenache			**AGE OF GRAPEVINE**	5 – 8 years old
TYPE OF SOIL	Clay loam soil with calcareous character			**ALTITUDE**	512 meters
SIZE OF THE VINEYARD	Several	**AMOUNT OF YIELD**	Several	**DIRECTION OF VINEYARD**	Plain
CLIMATE	Continental-Mediterranean climate			**CLIMATE FEATURE FOR THIS VINTAGE**	Normal rain, cool winter, very hot summer.
AGRITULTURE METHOD	Organic or biological method, without a certification.				
METHOD OF CULTIVATE	Tractor			**METHOD OF HARVEST**	Hand picking

FERMENTATION			
HARVEST	September 2025	**DESTEM?**	Yes
MACERATION	40 days of conventional maceration		
PRESSING DAY	October 2025	**Type of press machine**	*Vaslin* horizontal press
ALCOHOLIC FERMENTATION	>15 days	**Kind of yeast**	Native
MALOLACTIC FERMENTATION	Done	**Kind of bacteria**	Native
AGING	8 months in stainless steel tanks		
BOTTLING	**DATE OF BOTTLING**	June 2026	
	ALCOHOLIC CONTENT	14,54 % vol.	
	REMAINING SUGAR	1,70 g/l	
SPECIAL MENTION FOR FERMENTATION OF THIS VINTAGE	This vintage we had problems with the fermentation, it was solved with the additions of some skins, but it is still noticeable in the wine. Less concentration of the compounds, feeling Santa Helena like a light red this vintage.
